

## 2008 Children's Fitness Challenge - Tampa

Children's Fitness Challenge – May 2008 – Tampa, Florida

Look up in the sky, are they birds or planes, no, they are children flying over the cargo net as they come to challenge themselves on the obstacle course. In the sixties there was superman as well as climbing apparatus on playgrounds. Well, the Tri-Fitness organization is happy to bring you back to yesterday with its obstacle course consisting of a cargo net, running grid, cone weave, balance beam, hurdles, etc.

They say history repeats itself which made many parents happy to watch their young ones run, climb and jump on this Saturday afternoon instead of watching television or playing video games.

These children had a blast and were proud to wear the Underarmour/Rock Foundations shirts. See [www.djrockfoundation.org](http://www.djrockfoundation.org) for more information about the Rock Foundation and our Children's Fitness Challenge. View the 2008 Tampa Event Gallery
